LOCAL LEP SCALEUP PROGRAMMES

Careful interrogation of data available on businesses in the Sheffield City Region points to a world class and nationally significant industry, manufacturing and engineering base.

A number of existing peer to peer networks are currently offered to local scaleups. This focuses on fostering growth, collaboration and innovation.

Sector specific groups, such as the Manufacturing Forum work with local scaleups to foster opportunities for growth.

The Hub's team of 10 growth specialists helps potential scaleup companies identify and overcome barriers to growth. This includes helping companies access new markets and brokering access to services.

SCALEUP VIEWS:

Access to talent is a key barrier to growth, as is access to international markets. They are likely to see the value in recruiting people into the business with experience of scaling a business or of working in a larger business, rather than using mentors or peer to peer networks. They do though value local support from accountants, LEPs and Growth Hubs.

Analysis by BDRC Continental from the Scaleup Survey 2017

TOP 3 BARRIERS TO GROWTH:

TALENT AND SKILLS

Access to the talent you can hire who can do the jobs you have available

ACCESS TO MARKETS

Access to markets and customers internationally

LEADERSHIP

Leadership development: training and developing the people you have

WANT TO SEE MORE OF:

- Local and Regional Government e.g. LEPS, Growth Hubs, city councils
- Peer to peer networks
- Local professional services eg accountants and lawyers

WHAT'S NEXT/FUTURE PLANS: The ongoing delivery of its existing programmes is the immediate priority for Sheffield City Region. These continue to exceed targets and have contributed growth in all sectors and to the region's resurgence as a leader in innovation, manufacturing and engineering.

These are programmes offered by the LEP and do not represent all the programmes offered to scaleups in the local area. These have not been evaluated or endorsed by the ScaleUp Institute for their impact and effectiveness. Data utilised at the top of this page is taken from the IDBR 2015. The confidentiality of all data held on the IDBR is protected by the National Statistics Code of Practice and associated Protocols and by specific legislation. In accordance with these requirements, data presented is rounded to prevent disclosure. Differences may exist in totals across tables due to disclosure methods used.
