

The Scaleup Index

2019

Beauhurst

Foreword

This year we are publishing the third edition of the Scaleup Index, the only report that examines all the UK's 'visible' scaleups in depth, as part of our commitment to improving the quality of data that is publicly available on the scaleup community. As last year, this report includes all the UK's private visible scaleups as well as those listed on the Alternative Investment Market (AIM).

In 2019 the Index shows how the cohort of private scaleups has swelled to more than 5,000, growing from 4,420 to 5,456 in a year — an increase of 23%. Additionally, 249 scaleups are listed on AIM who continue to show higher turnover growth rates than their non-listed peers.

The Index continues to map the state of the UK's scaleups across sectors, geographies and more. In this year's edition we have found:

- The number of visible scaleups has increased by over 1,000, nearly double the rate of increase seen between 2017 and 2018.
- £1.3b was invested into visible scaleups in 2018.
- BGF remained the top investor into visible scaleups for the third year in a row, having made 85 investments into visible scaleups since 2011.
- Four new investors have entered the top 20 list for investments into visible scaleups: Amadeus Capital Partners, Seedrs, Envestors, and Lansdowne Partners.
- Innovate UK has now made 642 grants to visible scaleups since 2011. Its Innovation Loans programme pilot has also been extended.
- Scaleups are found across the UK and in particular there has been strong growth in Manchester and other regions.
- Representation of women at the C-suite of visible scaleups saw small improvements. Last year, 41% of scaleups had at least one female c-suite member, increasing to 48% this year.

The 2019 Scaleup Index continues to show the breadth of the sectors these companies operate in; that they are growing up and down the country; and that they grow faster with the right kind of finance - whether it is private equity, public markets, or public sector grants. We must continue to support these companies because their growth adds billions of pounds to the UK's economy and hundreds of thousands of jobs.

We are grateful for the continued support of our partners. Without this we would not be able to produce with Beauhurst such critical research that helps further the understanding of a vital segment of the economy.

IRENE GRAHAM
CEO, THE SCALEUP INSTITUTE

13,746
visible scaling legal entities
examined

13,746 legal entities that filed full accounts matched the OECD scaleup criteria in at least one three-year period in 2011 to 09/2019.

2,524
foreign-HQ, LLPs,
financial vehicles excluded

We did not include companies that are part of a business headquartered abroad. We also excluded LLPs and financial vehicles.

2,378
subsidiary companies
excluded

If a group has many scaling subsidiaries, only the single overarching business has been included.

1,597
listed companies
excluded

Listed companies are excluded for the majority of the report, except for in the final section which focuses on scaleups listed on AIM.

1,387
charities, trusts, CICs
excluded

This report has not looked at charities as their aims are materially distinct from those of fast-growing commercial enterprises.

404
acquired companies
excluded

The OECD definition of a scaleup excludes companies that began scaling only after being acquired.

5,456
unique scaleup businesses

About this report

ABOUT THIS REPORT

This report examines ‘visible scaleups’ in the UK: a visible scaleup is a company that (i) meets the 20% OECD definition of a high-growth firm (see below) and (ii) files full accounts at Companies House.

OECD HIGH-GROWTH FIRMS

All enterprises with average annualised growth greater than 20% per annum, over a three year period, with at least 10 employees at the start of the observation are defined as high-growth firms. Growth can be measured by the number of employees or by turnover. Companies that have grown because of mergers, takeovers and acquisitions are excluded.

FULL ACCOUNTS

UK companies are only required to disclose their turnover if two of the following are true:

- annual turnover exceeds £10.2m
- assets exceed £5.1m
- more than 50 employees

Only companies that meet two or more of these criteria or those who have chosen to declare their turnover count as 20% visible scaleups.

We look forward to the fulfilment of current policy recommendations making ‘invisible scaleups’ discoverable too.

SECTORS

The businesses in this report have been classified according to Beauhurst’s proprietary sector matrix and are tagged with as many sectors as are relevant. In this report scaleups operating in multiple sectors have been double-counted.

ACKNOWLEDGEMENTS

We would like to thank the ScaleUp Institute for all of their support in the production of this report.

VISIBLE SCALEUPS

- (i) meet the 20% OECD definition of a high-growth firm
- (ii) file full accounts at Companies House

VISIBLE SCALEUPS IN UK BY LOCAL AUTHORITY

Investment. 2017 remains the record year for equity investment into visible scaleups thanks to a handful of megadeals (>£50M).

ANNOUNCED EQUITY INVESTMENTS IN SCALEUPS 1/1/11- 31/8/19

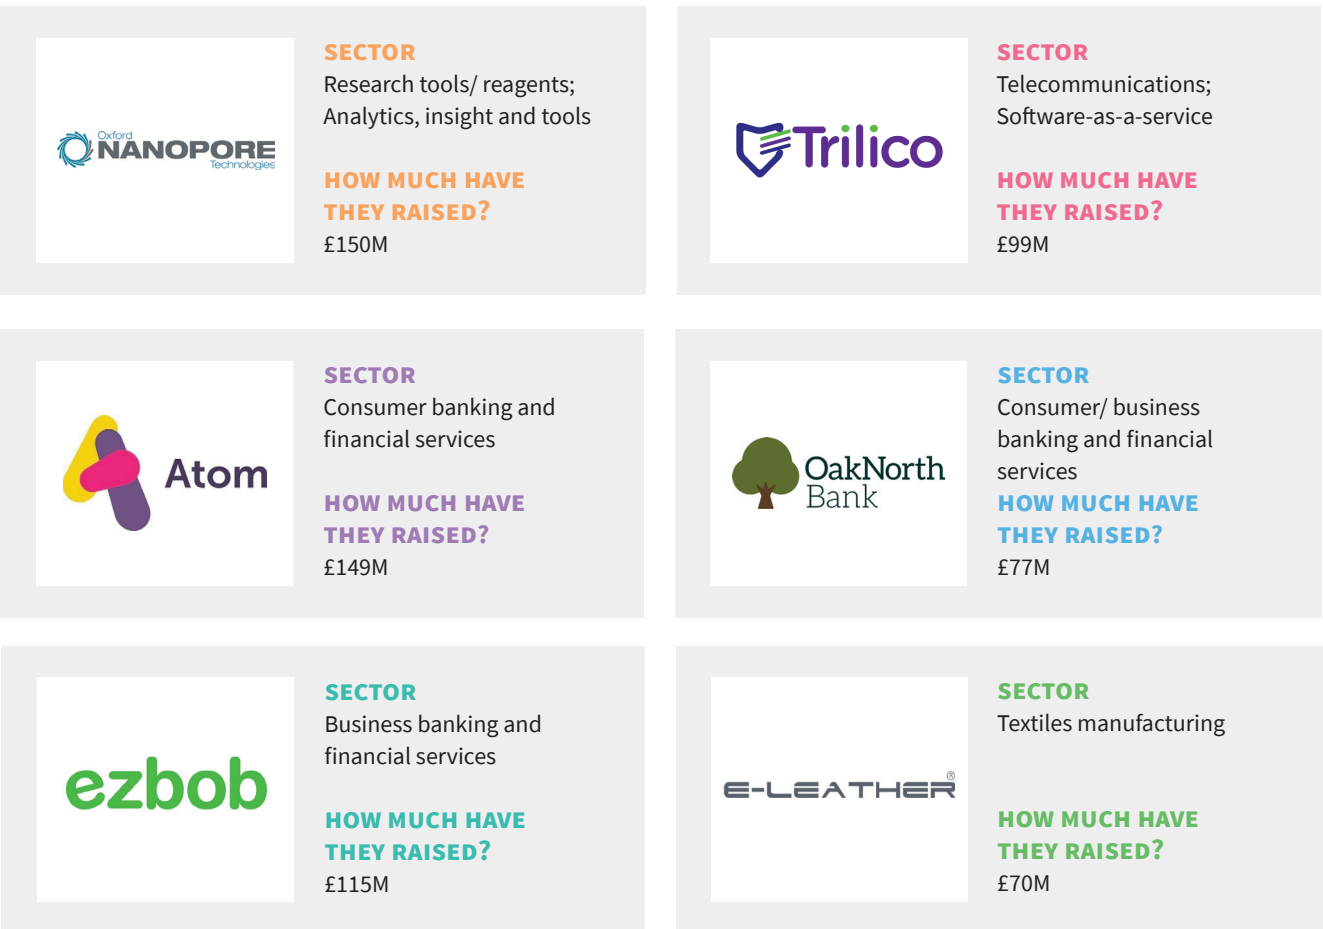

63 equity investments were made into visible scaleups in 2018. The largest of these was an investment of £150M into Oxford Nanopore.

2018 KEY FIGURES

TOP SCALEUPS BY TOTAL AMOUNT OF EQUITY RAISED IN 2018

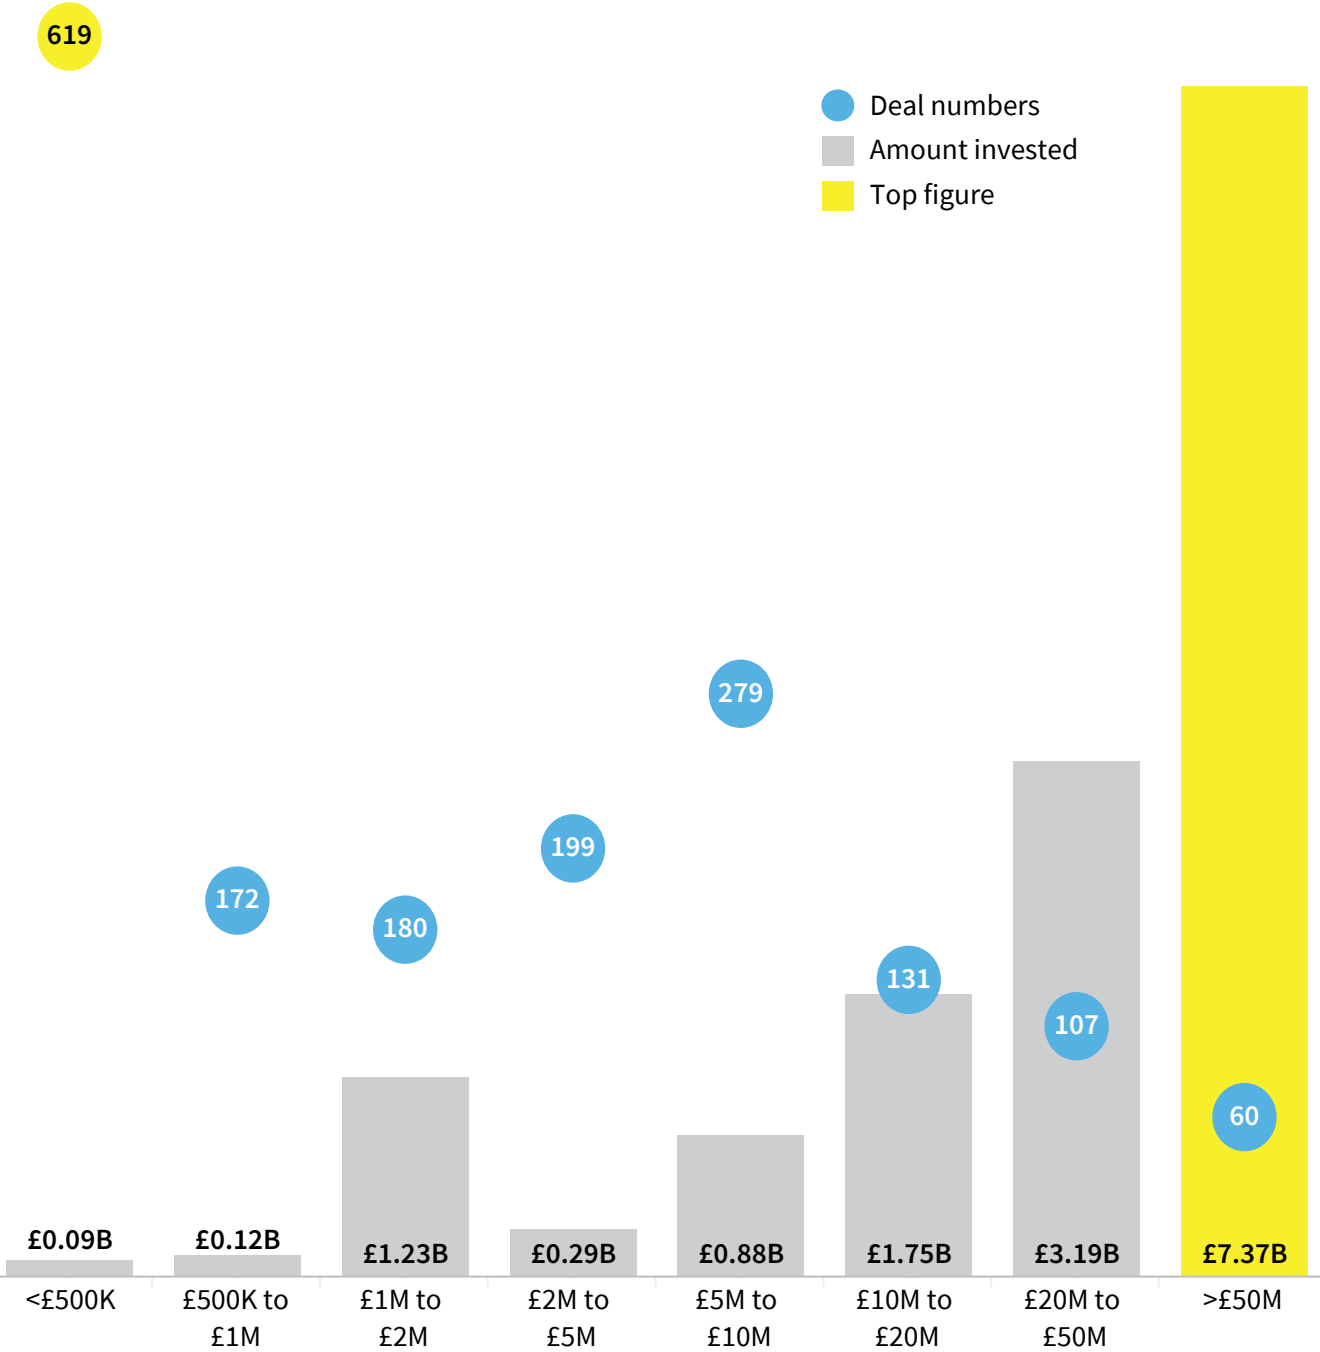

“Enabling businesses to scale and empowering entrepreneurs to make bolder decisions is key to ensuring the UK economy can thrive. Access to capital is an important component to this, as is making sure they have the right network and tools to overcome the challenges that come with growth.”

Wol Kolade Managing Partner, Livingbridge

Deals worth more than £50M – a small proportion of the total number of deals – account for the bulk of the amount received by visible scaleups.

EQUITY INVESTMENTS IN SCALEUPS 1/1/11 – 31/8/19 BY SIZE BRACKETS

28 of the 54 funds that have backed one or more visible scaleups have received backing from the British Business Bank.

“

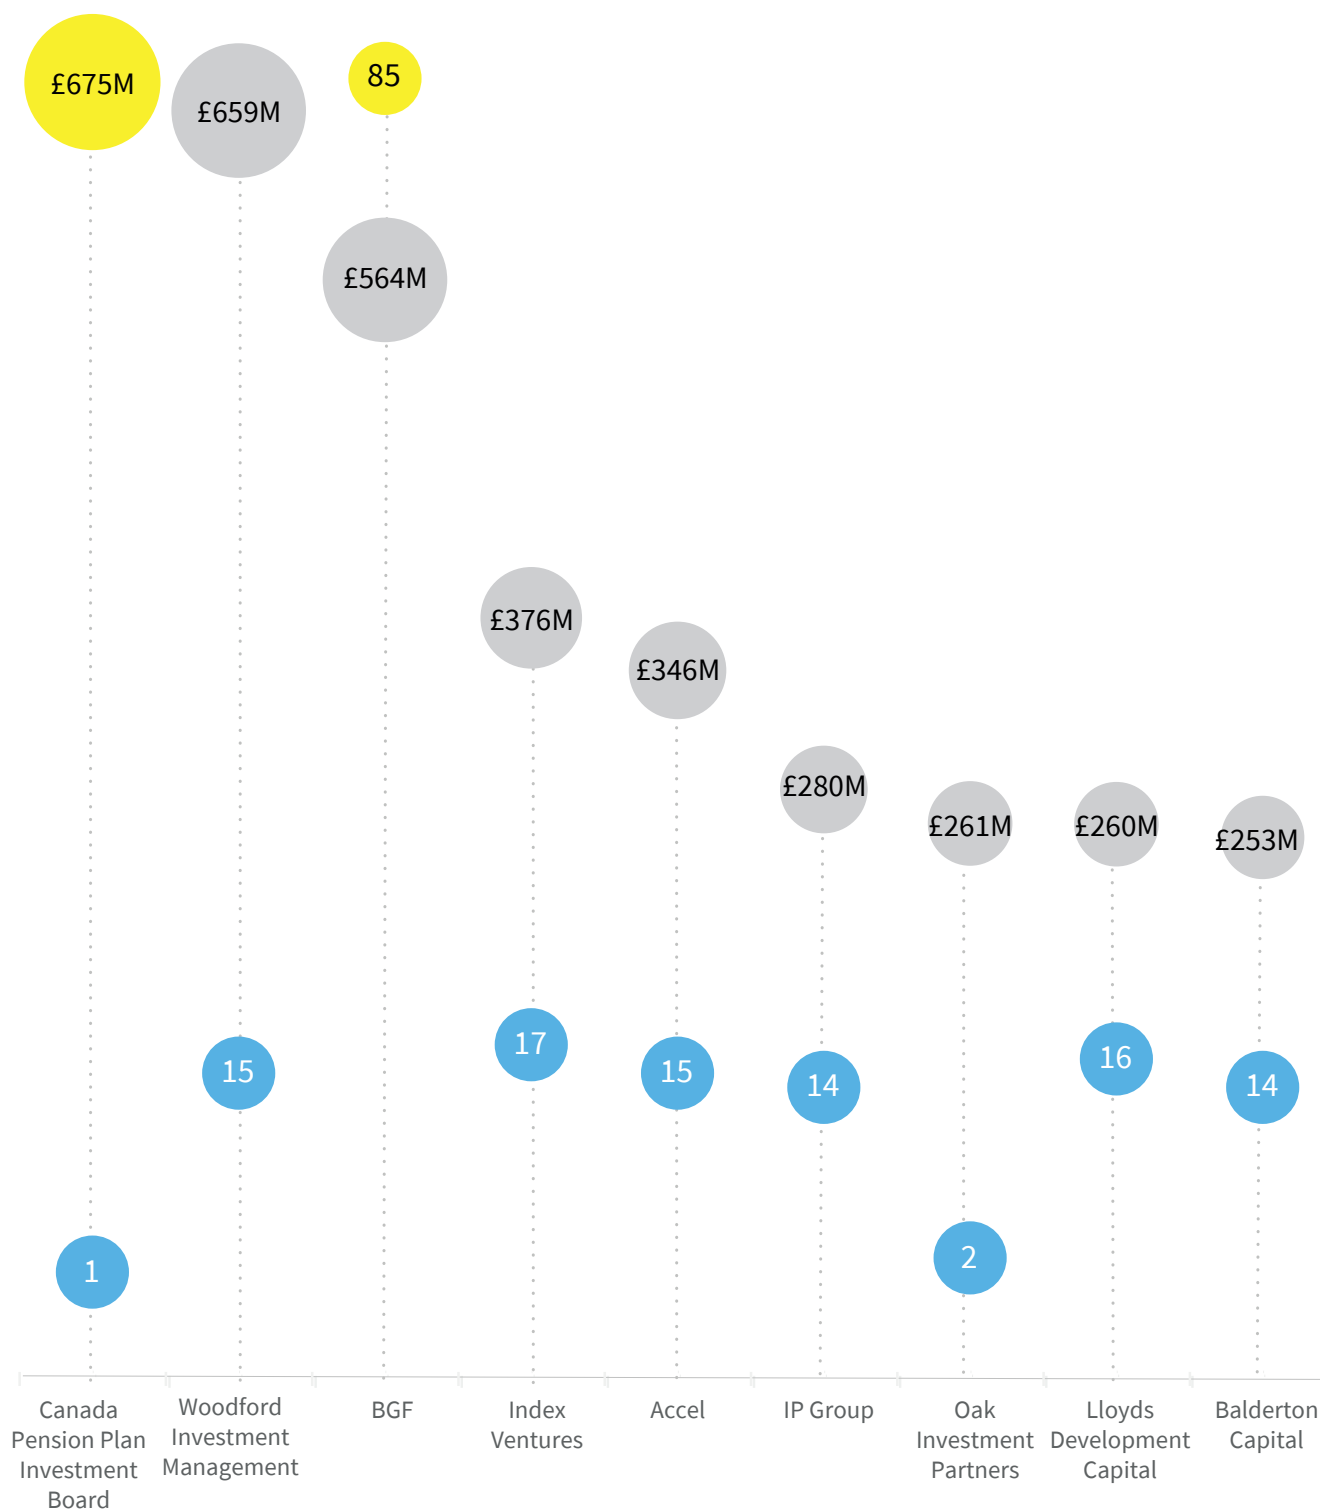

In its first year of operation, British Patient Capital has committed a total of £334m to 12 venture and venture growth capital funds. This is a strong first step in developing UK markets for patient capital and enabling long-term investment in innovative companies who want to build successful, world-class businesses. We are also very pleased to see that in the 2019 ScaleUp Index more than half of the funds backing scaleup businesses are in turn backed by the British Business Bank.”

Keith Morgan CEO, British Business Bank

”

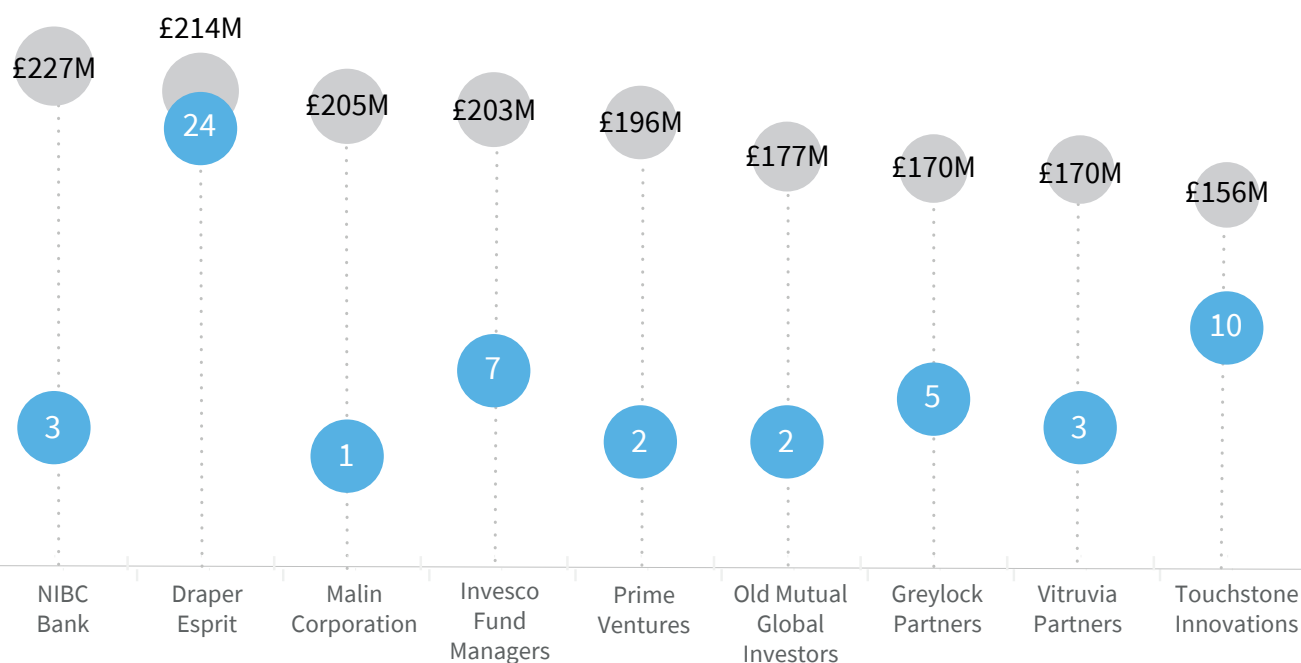

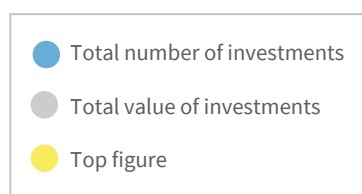

Top investors. BGF remains the top investor into visible scaleups by the number of investments made, though it has invested less than Canada Pension Plan's one megadeal.

TOP INVESTORS INTO SCALEUPS 1/1/11 – 31/8/19

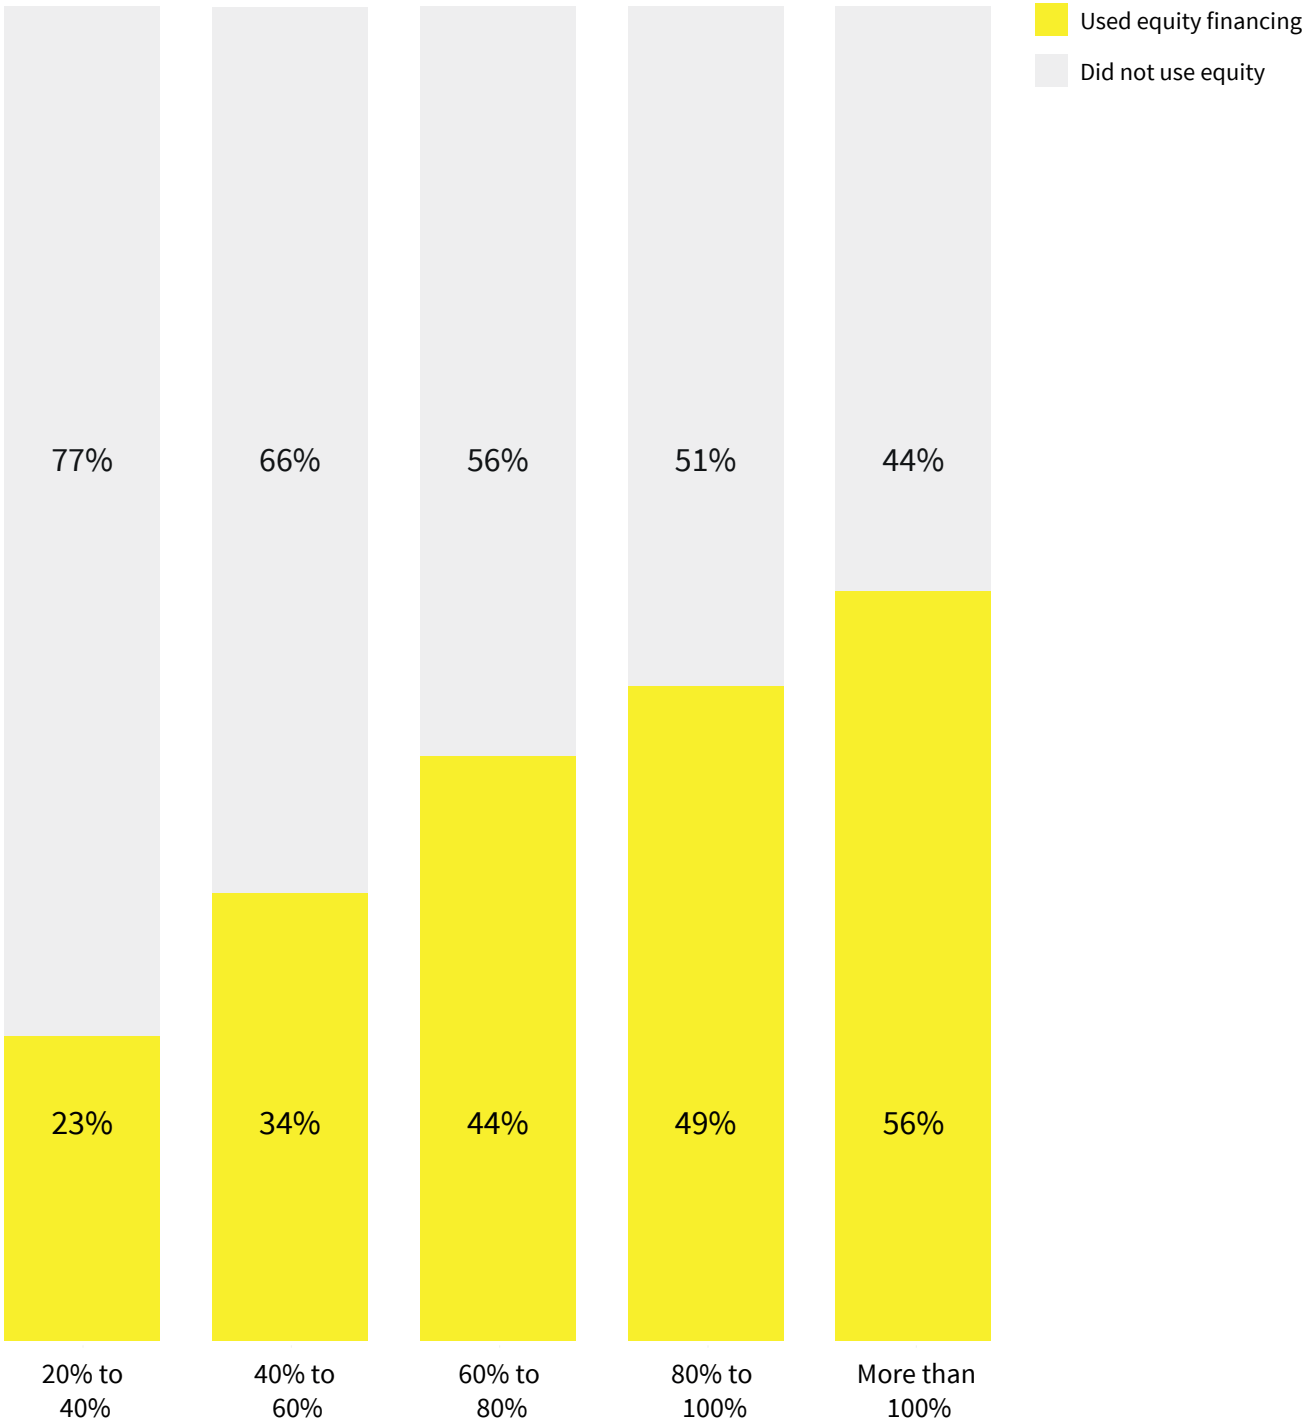

“ The UK relies heavily on the growth of its scaleups for jobs and future wealth creation. Now, more than ever, there is a clear national interest to safeguard this by increasing investment. We need to send clear signals to both promote entrepreneurship and to have dynamic policies to support the whole ecosystem. As economies around the world adjust to the industries of the future, driven in large part by knowledge-based enterprises, and newly emerging sectors such as autonomous vehicles and the wider green agenda, this year’s research shows the potential of the bold and bright businesses of today to become the big businesses of tomorrow.”

Stephen Welton CEO, BGF

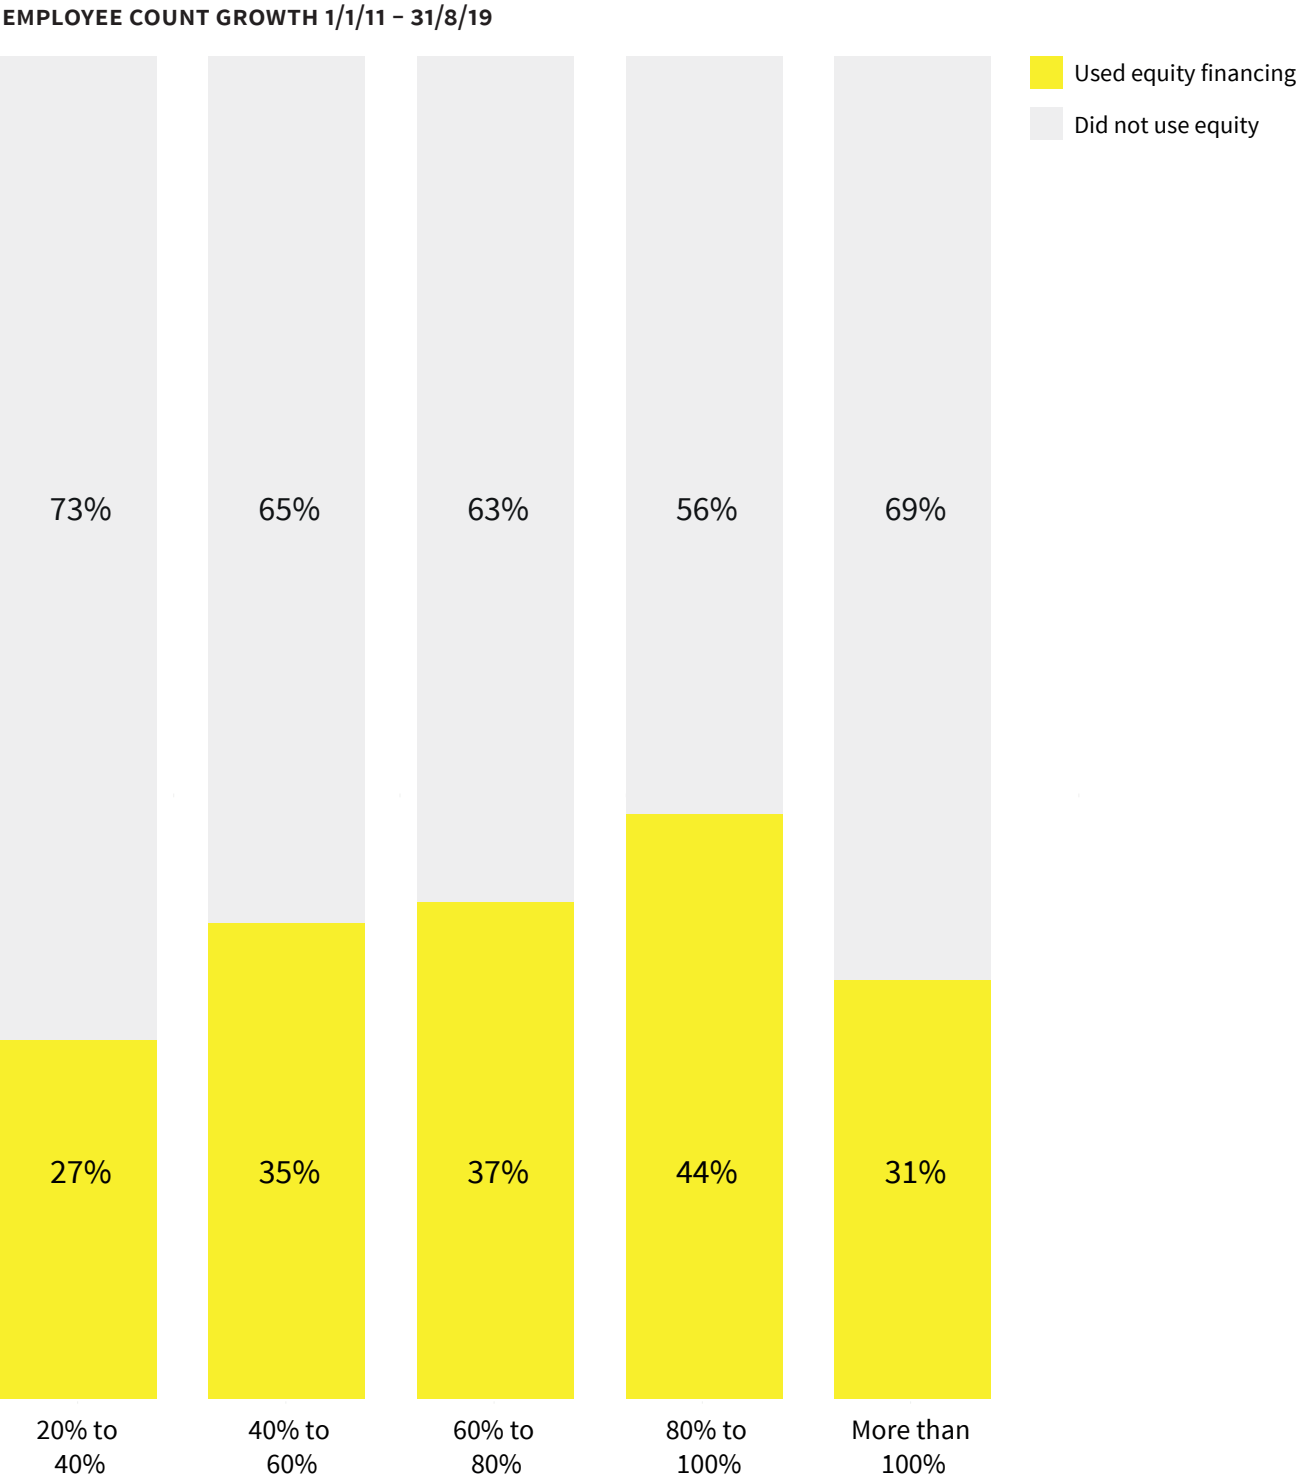

Growth rate demographics. Overall, companies with higher turnover growth are more likely to have raised equity funding.

TURNOVER GROWTH 1/1/11 – 31/8/19

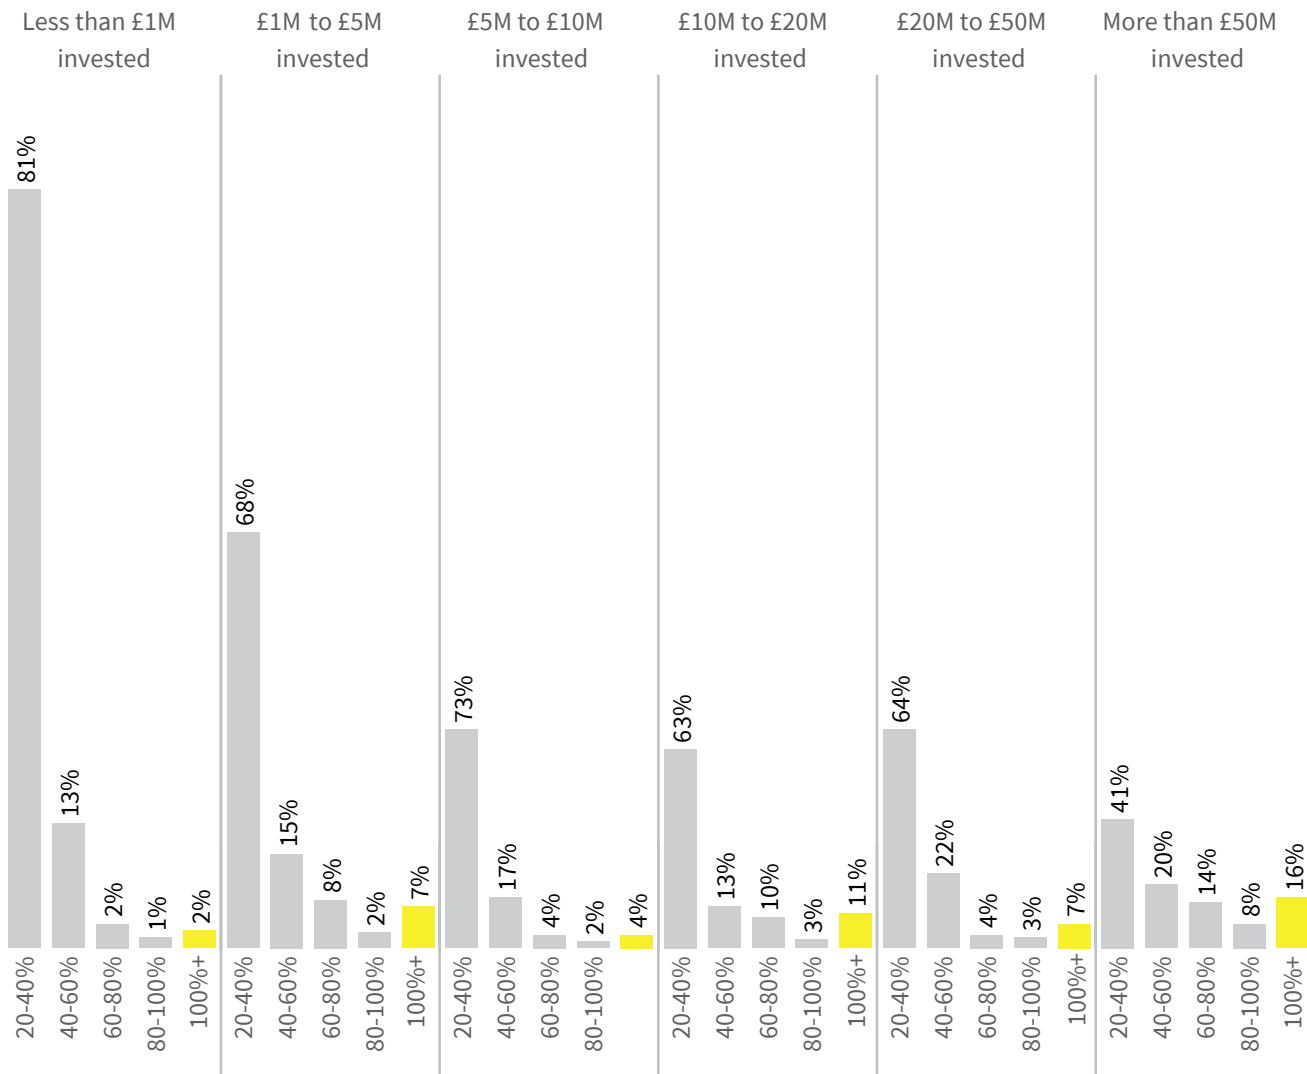

Headcount growth rate also correlates with the use of equity finance, up to 100% growth. It is rare for companies to grow their employee count by more than 100%.

Scaleups that have raised more equity are more likely to show turnover growth rates of over 100%.

TURNOVER GROWTH RATE BY AMOUNT OF EQUITY INVESTMENT 1/1/11 – 31/8/19

GH Financials persists as the longest scaling company, having qualified as a scaleup by turnover for 10 years.

INNOVATE UK GRANTS TO SCALEUPS 1/1/11 – 31/8/19

— Number of grants ■ Value of grants ■ Top value

Scaleups in manufacturing sectors remain the top recipients of Innovate UK grant funding.

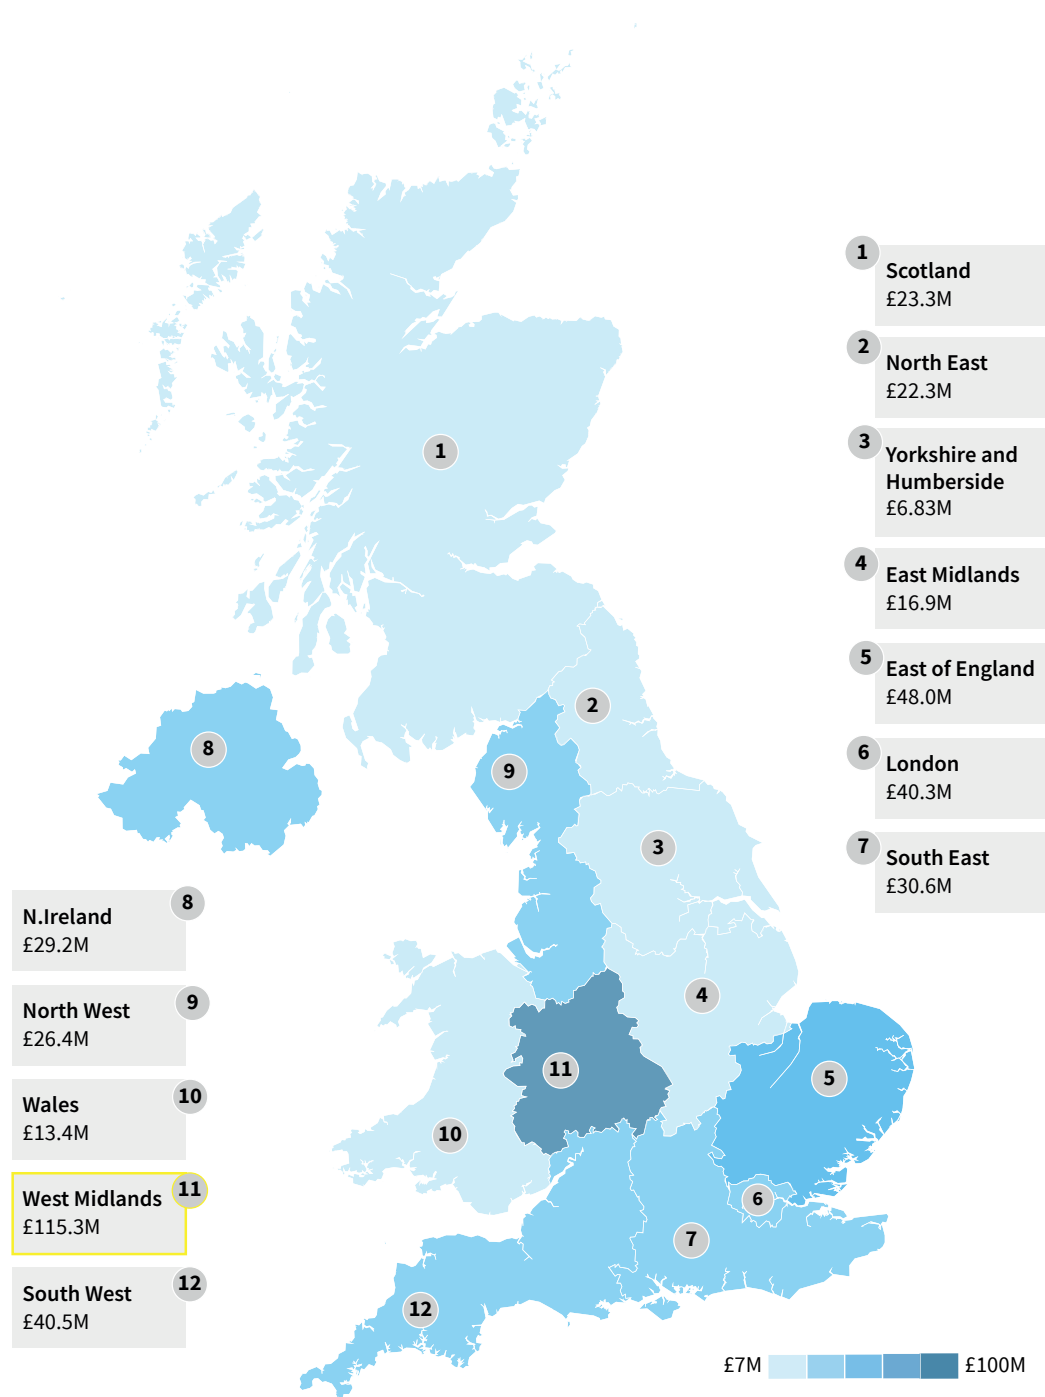

TOP SECTORS BY NUMBER OF SCALEUPS RECEIVING INNOVATE UK GRANTS

Misc. manufacturing and engineering	152
Automotive	62
Chips and processors	51
Electrical components	49
Other Cleantech	46
Food and drink processors	46
Semiconductors	45
Research tools/ reagents	40
Other supply chain	38

METHODOLOGY NOTE:
As we find new scaleups, we include their entire grant history. For example, this means a scaleup found in 2018 can cause the 2011 figure for grants awarded to scaleups to increase. The chart on the facing page therefore depicts all grants ever awarded to a company that has become a scaleup between 01/01/2011 to 31/08/2019.

Grants. By value, scaleups in the Midlands received a third of all grants awarded to scaleups. Scaleups in the East of England have received over £45m of support.

ALL GRANTS TO SCALEUPS BY REGION 1/1/01 – 31/8/19

Grants and equity. While a larger proportion of equity goes into companies that have not received an Innovate UK grant, those that have been awarded a grant raise more equity funding on average.

£12.1B

total equity investment into non-IUK backed companies

£3.0B

total equity investment into IUK backed companies

£8.2M

average amount raised in equity by non-IUK backed companies

£11.0M

average amount raised in equity by IUK backed companies

NOTE:

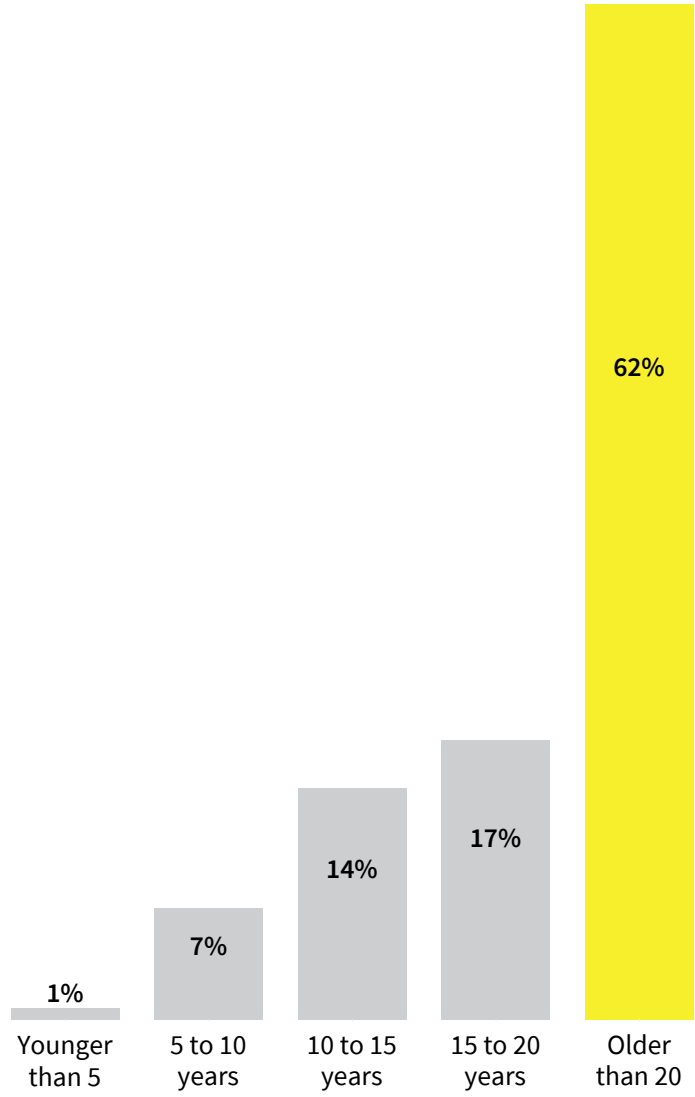

Innovate UK also offers innovation loans for SMEs. A total of up to £50 million has been committed in 5 initial competitions and a further two competitions will make £25 million available for business innovation projects.

“High growth and scaling businesses are core to future economic growth. To best support those businesses we focus on creating an enabling environment that encourages innovation in all businesses with the potential to grow and scale, right across the country. We are placing more emphasis on identifying and investing in high-growth SMEs with the potential and ambition to grow through innovation. This is reflected in the way we assess and fund innovation projects and the wider support delivered, including for high potential scale-ups. In this year’s ScaleUp Index it is pleasing to see that grant funding made by Innovate UK of £205m has leveraged a further £3 billion from the private sector thus enabling 642 scaling businesses (up 86% from 2018) to break through the £10 million turnover barrier to visible scale and on-going growth. Our role is very much to work with the private sector to facilitate the scaleup journey. We look forward to continuing our partnership with the ScaleUp Institute and widening our involvement with our Catapult Centres.”

Simon Edmonds Deputy Executive Chair and Chief Business Officer, Innovate UK

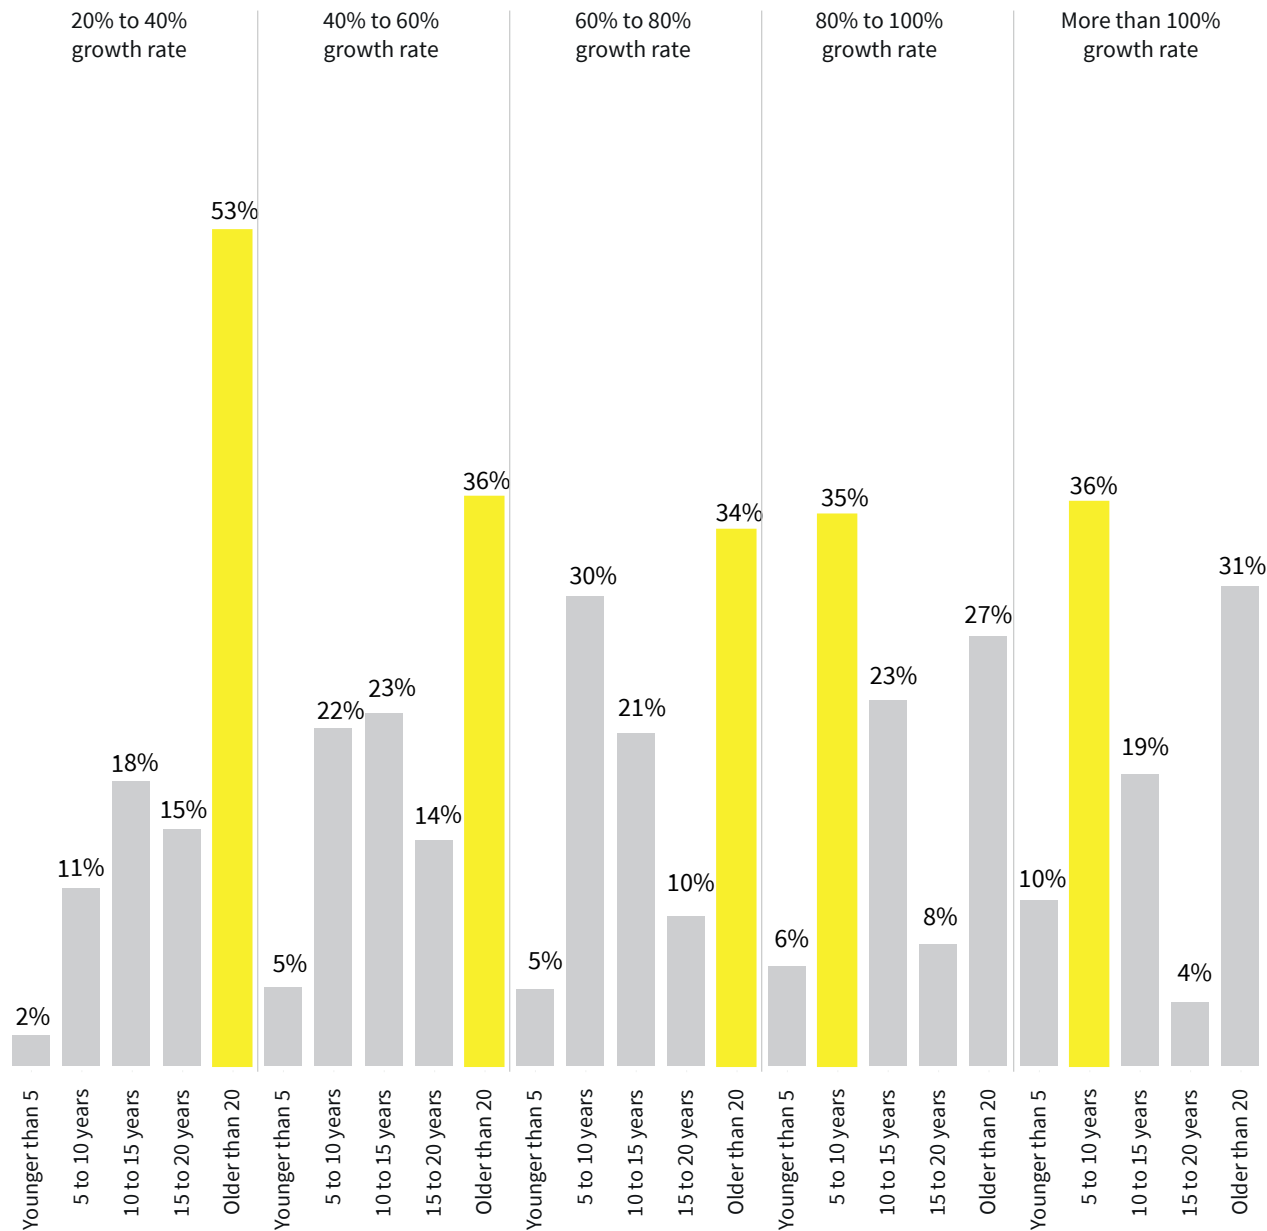

Company ages. More than 60% of scaleups incorporated more than 20 years ago.

SCALEUP AGES

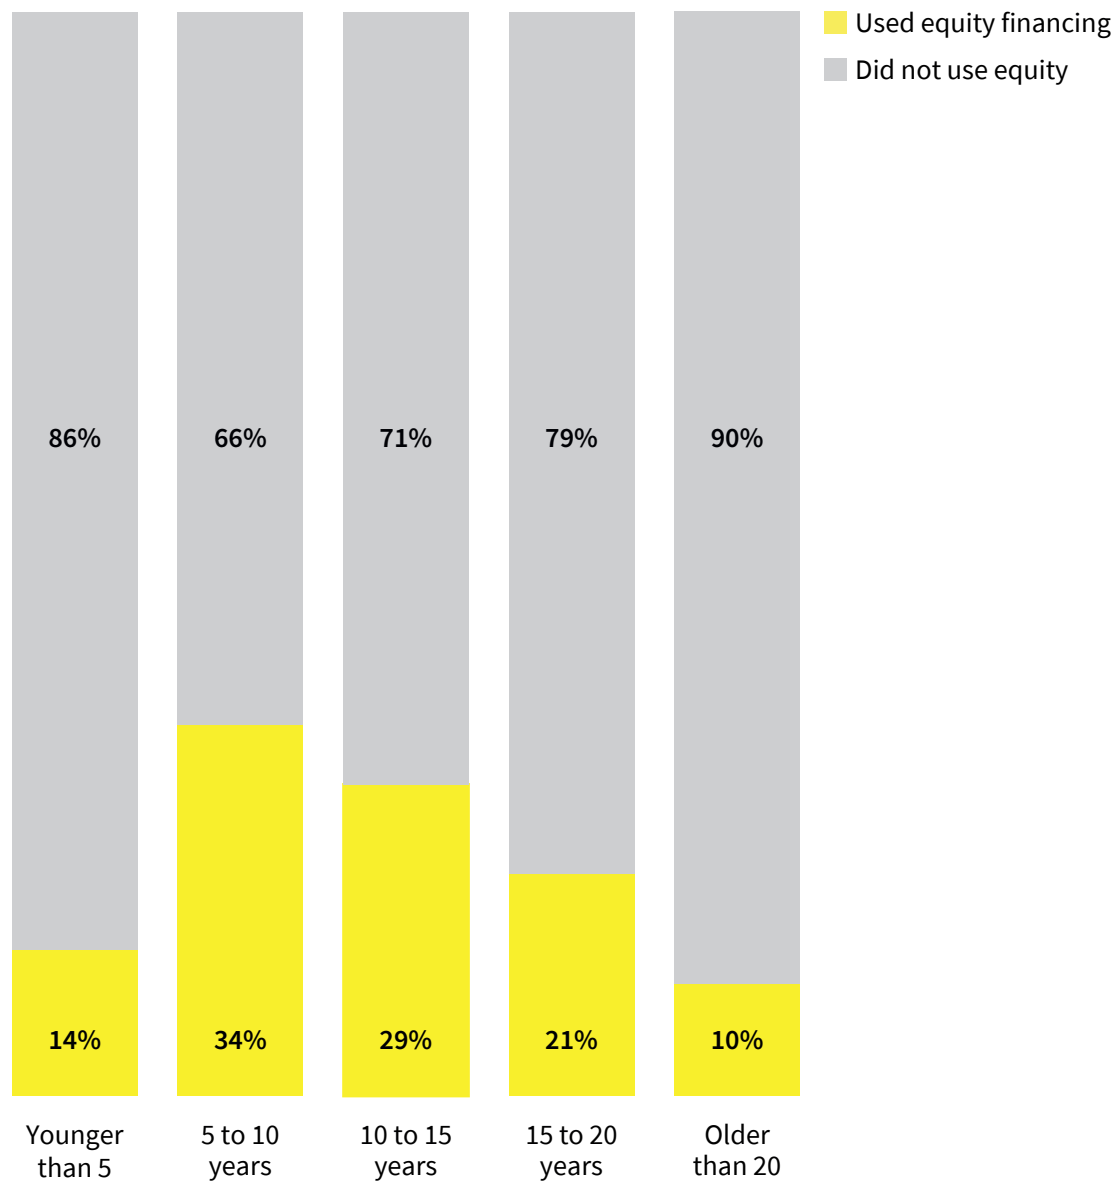

Companies from 5 to 10 years old are most likely to have turnover growth rates of above 80%.

TURNOVER GROWTH RATE BY AGE OF COMPANY

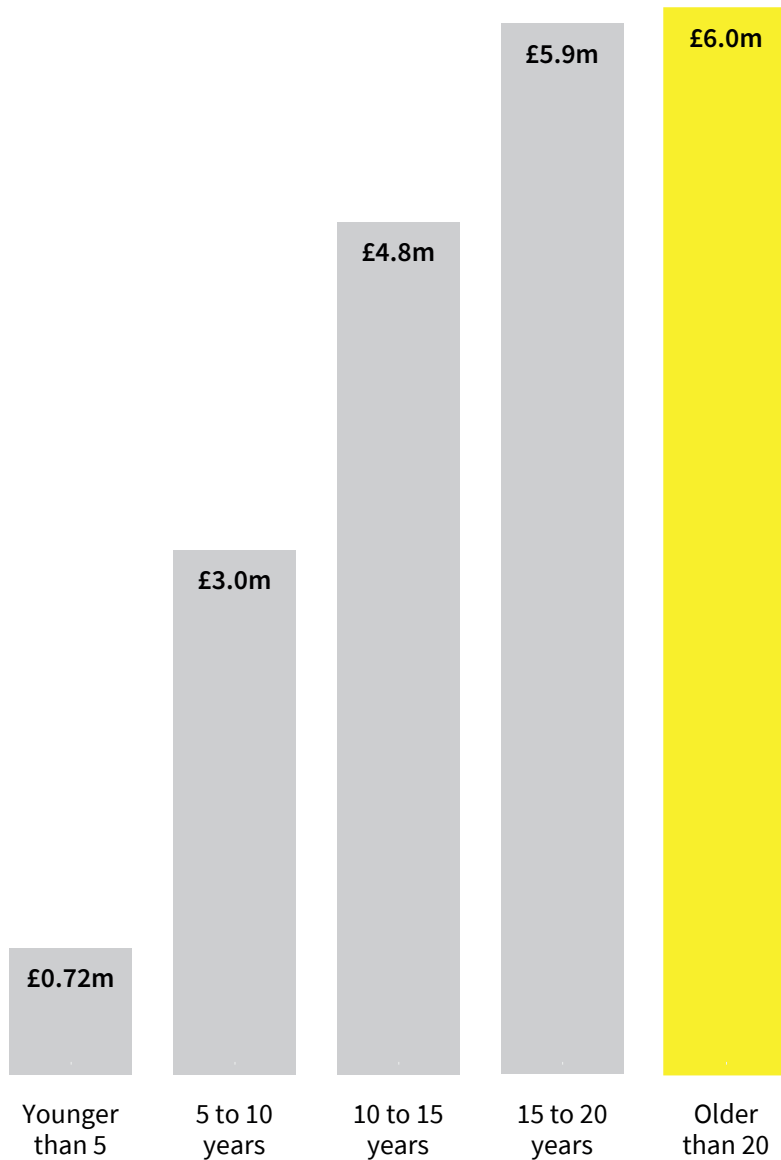

Company ages. Older scaleups are the least likely to use equity finance. Introducing new shareholders becomes more difficult over time.

PROPORTION OF SCALEUPS USING EQUITY FINANCING BY COMPANY AGE

Exports. Nearly a third of scaleups declare overseas turnover. Scaleups that are more than 15 years old have the highest average overseas turnover.

AVERAGE OVERSEAS TURNOVER BY SCALEUPS IN 2018

30%

of visible scaleups declare overseas turnover

Founders and executives. The proportion of scaleups with a female founder remains at 4%. A larger proportion of directors are found between the ages of 30 and 60 years old.

AGE OF DIRECTORS AT VISIBLE SCALEUPS

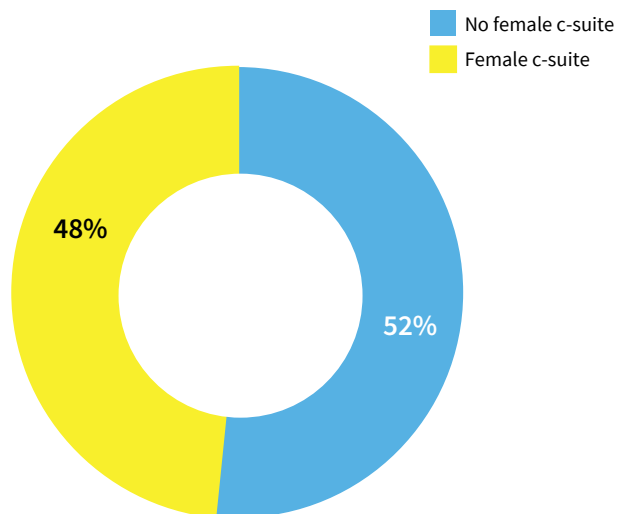

“ There is a lot of work to do to improve the number of female founders of scaling businesses and getting the right access to finance is critical to this. At finnCap our Ambition Nation female leaders programme aims to make the investment landscape easier to understand and provide stories of ambition to help encourage others to scale. We need to make those stories as visible as possible to unlock the realms of options and possibilities to our fellow female founders. I am immensely proud that finnCap continues to achieve our scaleup aims and I am determined we help others do the same.”

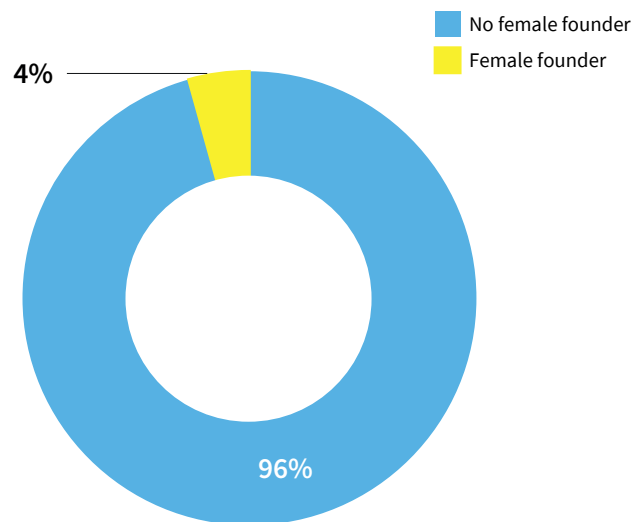

Sam Smith CEO, finnCap Group Plc

Female representation at the C-suite level and in directorships is improving, although founders remain predominantly male.

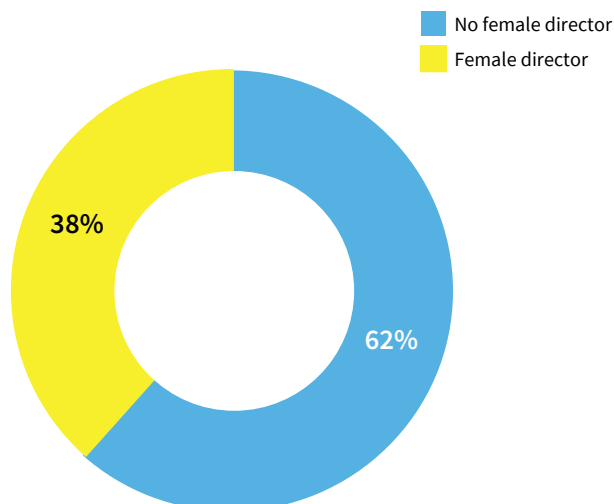

VISIBLE SCALEUPS IN 2018 WITH AT LEAST ONE FEMALE C-SUITE MEMBER

VISIBLE SCALEUPS IN 2018 WITH AT LEAST ONE FEMALE FOUNDER

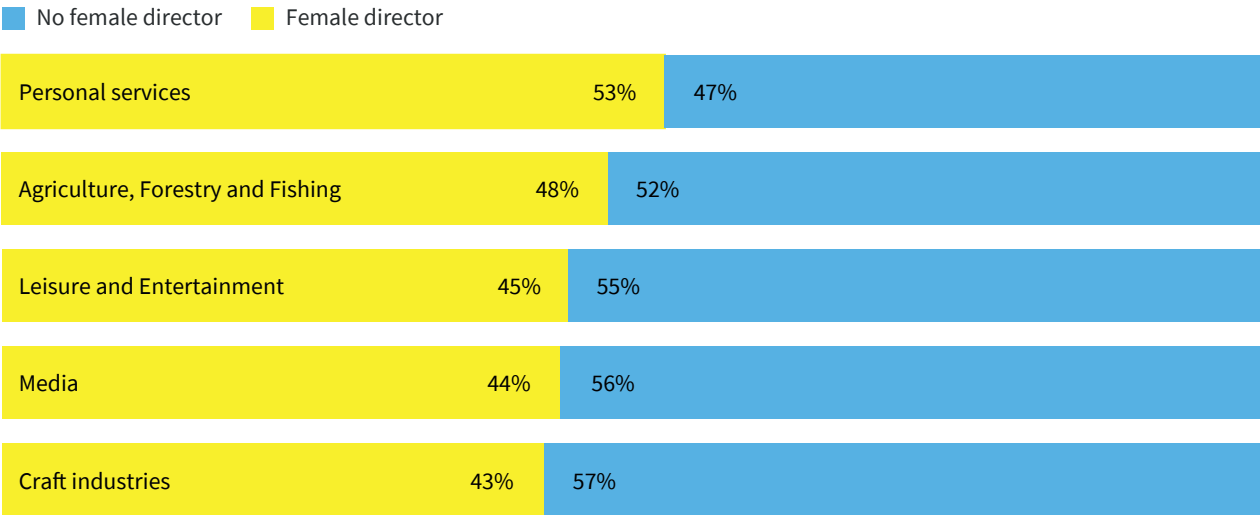

VISIBLE SCALEUPS IN 2018 WITH AT LEAST ONE FEMALE DIRECTOR

Female founded scaleups have secured £1.9B in investment since 2011. Santander's Corporate and Commercial fund is the top investor into female founded scaleups, with 7 deals.

TOP SECTORS BY PROPORTION OF SCALEUPS WITH AT LEAST ONE FEMALE DIRECTOR

TOP INVESTORS BY NUMBER OF INVESTMENTS INTO FEMALE FOUNDED SCALEUPS SINCE 2011

AIM Scaleups. Despite a decrease in the overall number of companies listed on AIM, the number of scaleups has increased from last year.

891

unique companies
listed on AIM

AIM typically attracts smaller companies than the main London Stock Exchange market. 891 companies are currently listed on it.

681

companies incorporated
in the UK

681 of the companies listed on AIM filed full UK accounts, which allowed us to determine whether they have scaled up or not.

326

unique scaleups with
683 scaling events

Of these, there were 832 individual scaling events to 326 unique AIM companies.

77

foreign operating and
financial vehicles excluded

A number of companies operated entirely outside of the UK, and several were merely investment vehicles, so these were excluded.

249

unique AIM scaleups

“ The Scaleup Index continues to reinforce the importance of scaleup companies to the UK economy and the importance of equity finance in driving their growth. London Stock Exchange Group is committed to playing its part in providing support and access to capital for these companies. The increased turnover and headcount growth of scaling companies on AIM is testament to the power of equity finance and the continued access to capital available through AIM to fund future development; one of the key benefits that being admitted to AIM can bring.”

Marcus Stuttard Head of AIM, London Stock Exchange

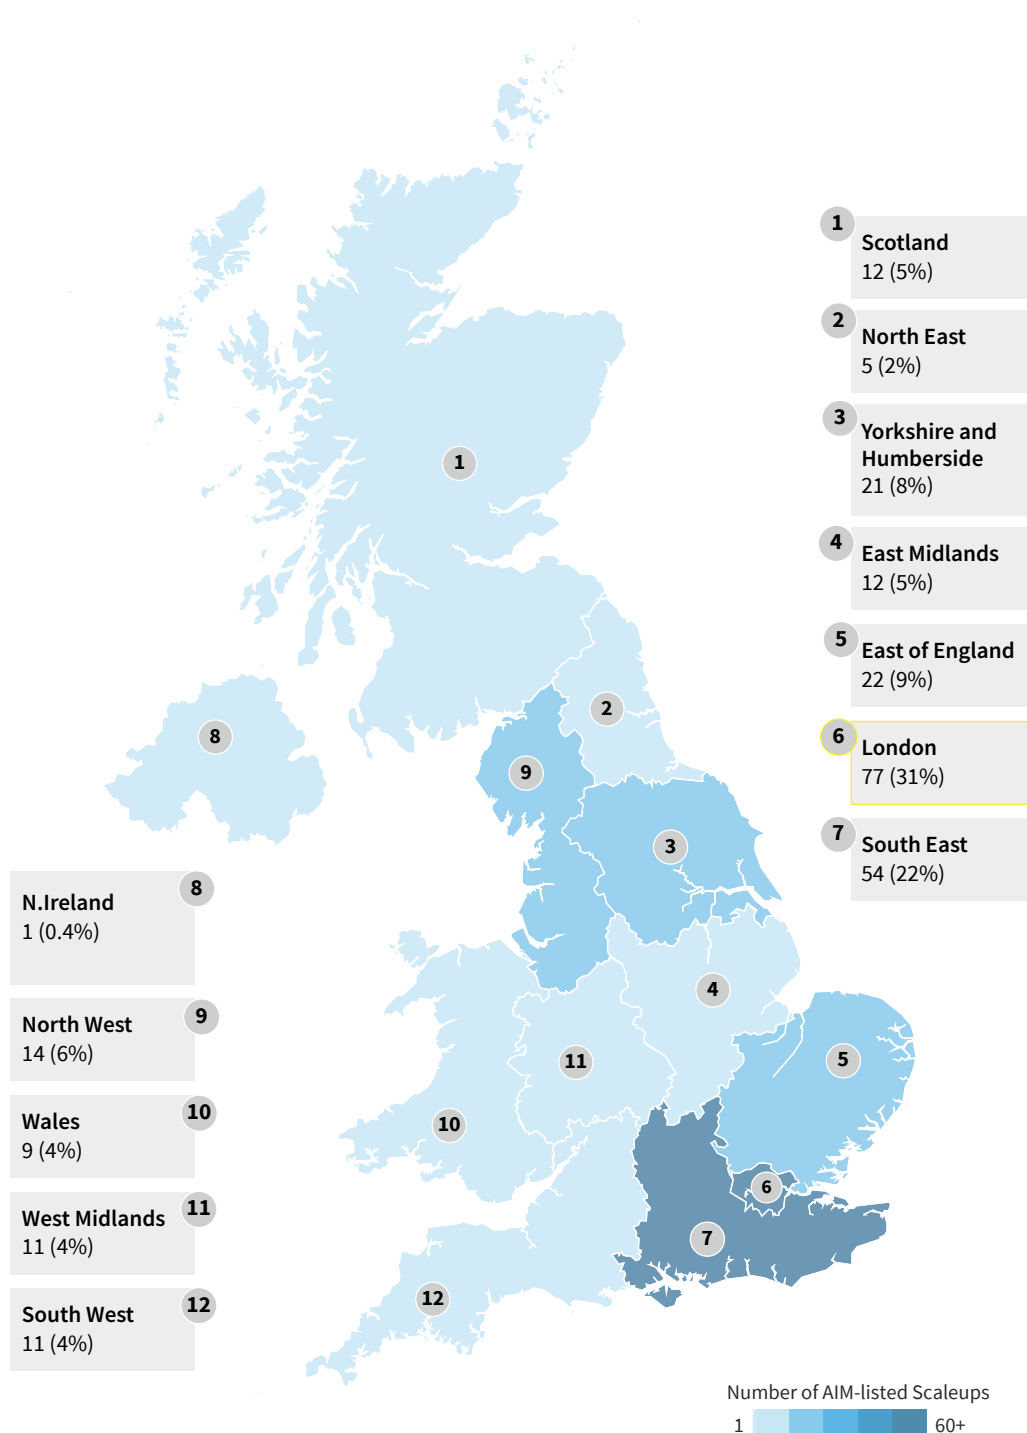

Professional services sectors make up eight out of twelve of the top sectors for UK AIM Scaleups, though the top two are both Technology sectors.

TOP SECTORS BY NUMBER OF AIM SCALEUPS

Software-as-a-service (SaaS)	27
Pharmaceuticals	16
Business banking and financial services	16
Analytics, insight, tools	16
Research tools/reagents	13
Security services (physical and virtual)	13
Oil and gas	11
Recruitment agencies and personnel supply services	11
Marketing services	11
IT consultancy sevices	11
Consumer banking and financial services	10
Website hosting and service provision services	10

London and the South East account for over half of AIM scaleups. Yorkshire and Humberside is the third most populated, home to 9% of AIM scaleups.

NUMBER OF AIM SCALEUPS MAPPED BY REGION

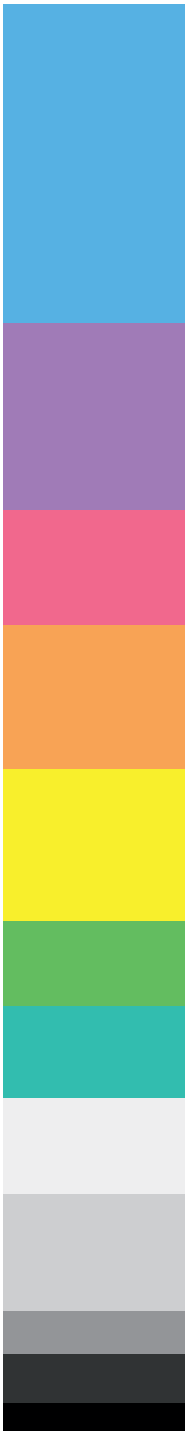

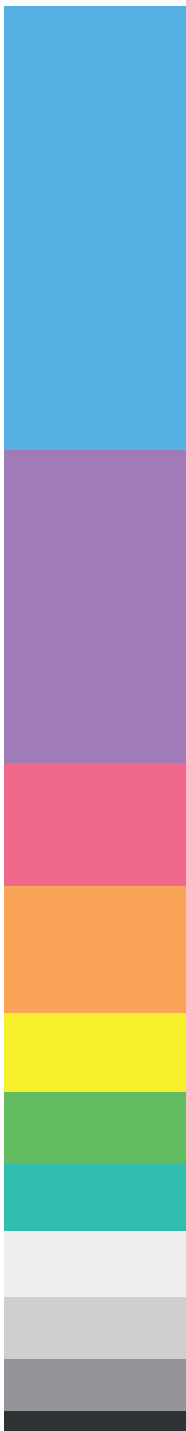

The regional distribution of AIM scaleups is comparable to that of private scaleups, with the South East of the country dominating.

PROPORTION OF AIM SCALEUPS PER REGION COMPARED WITH PRIVATE SCALEUPS

AIM scaleups

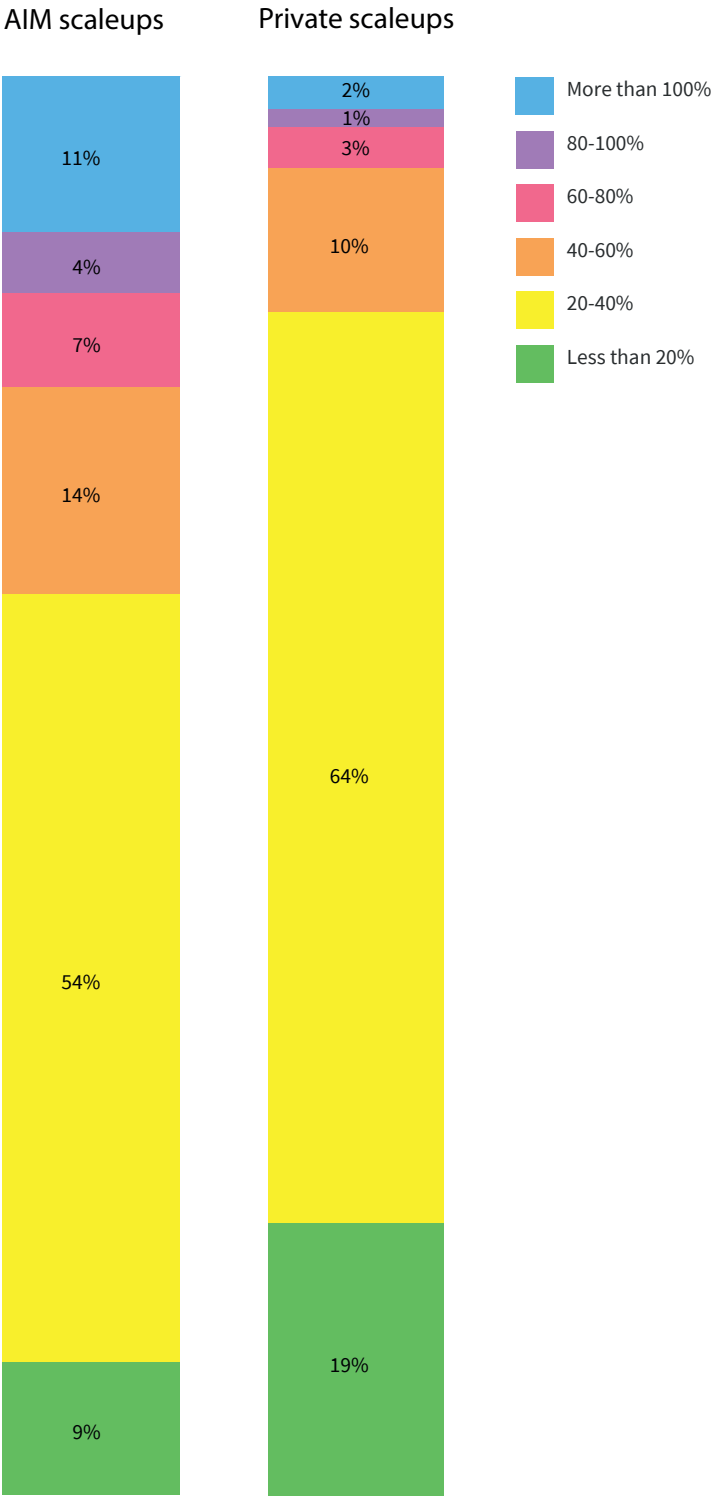

Private scaleups

- London
- South East
- Yorkshire and the Humber
- East of England
- North West
- Scotland
- East Midlands
- South West
- West Midlands
- Wales
- North East
- Northern Ireland

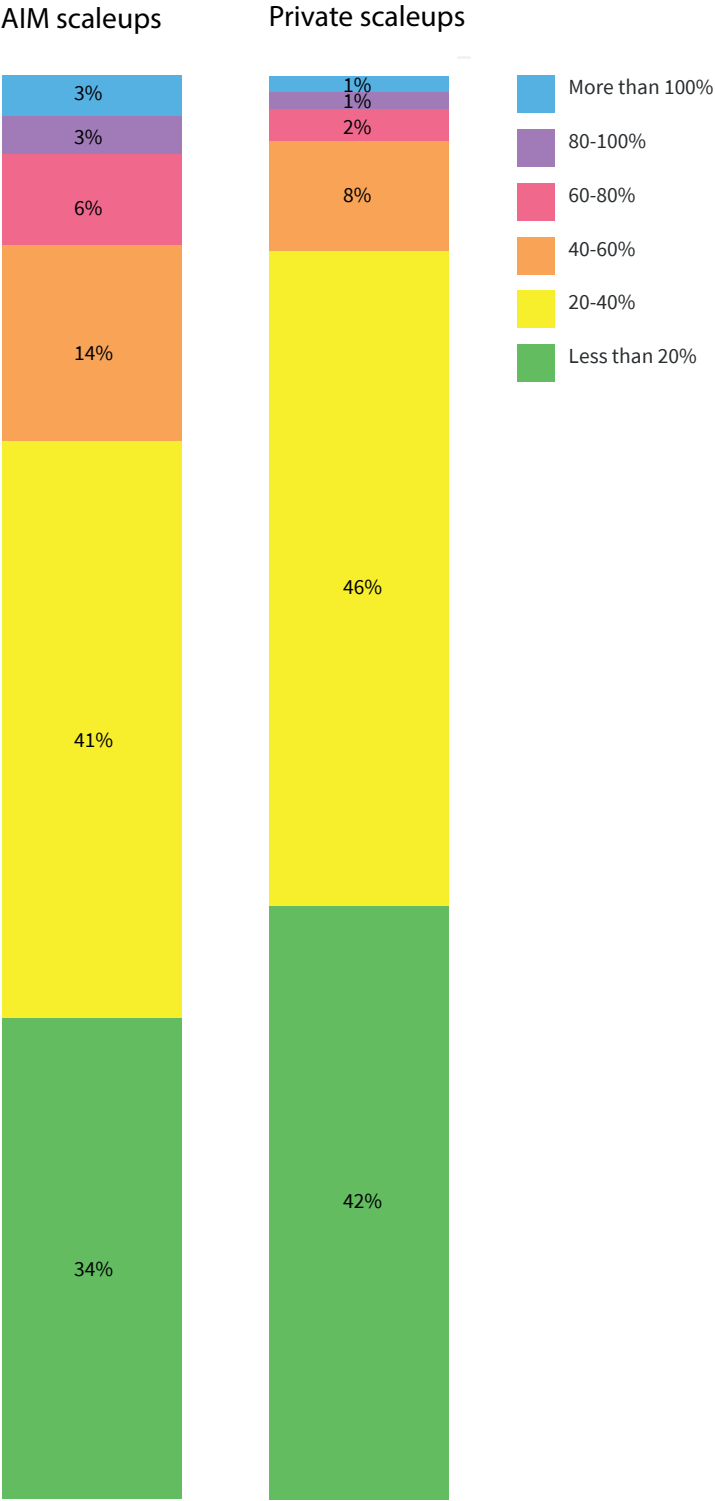

AIM scaleups are more than twice as likely as other scaleups to be growing their turnover by over 40%.

TURNOVER GROWTH RATES OF AIM SCALEUPS COMPARED WITH PRIVATE SCALEUPS

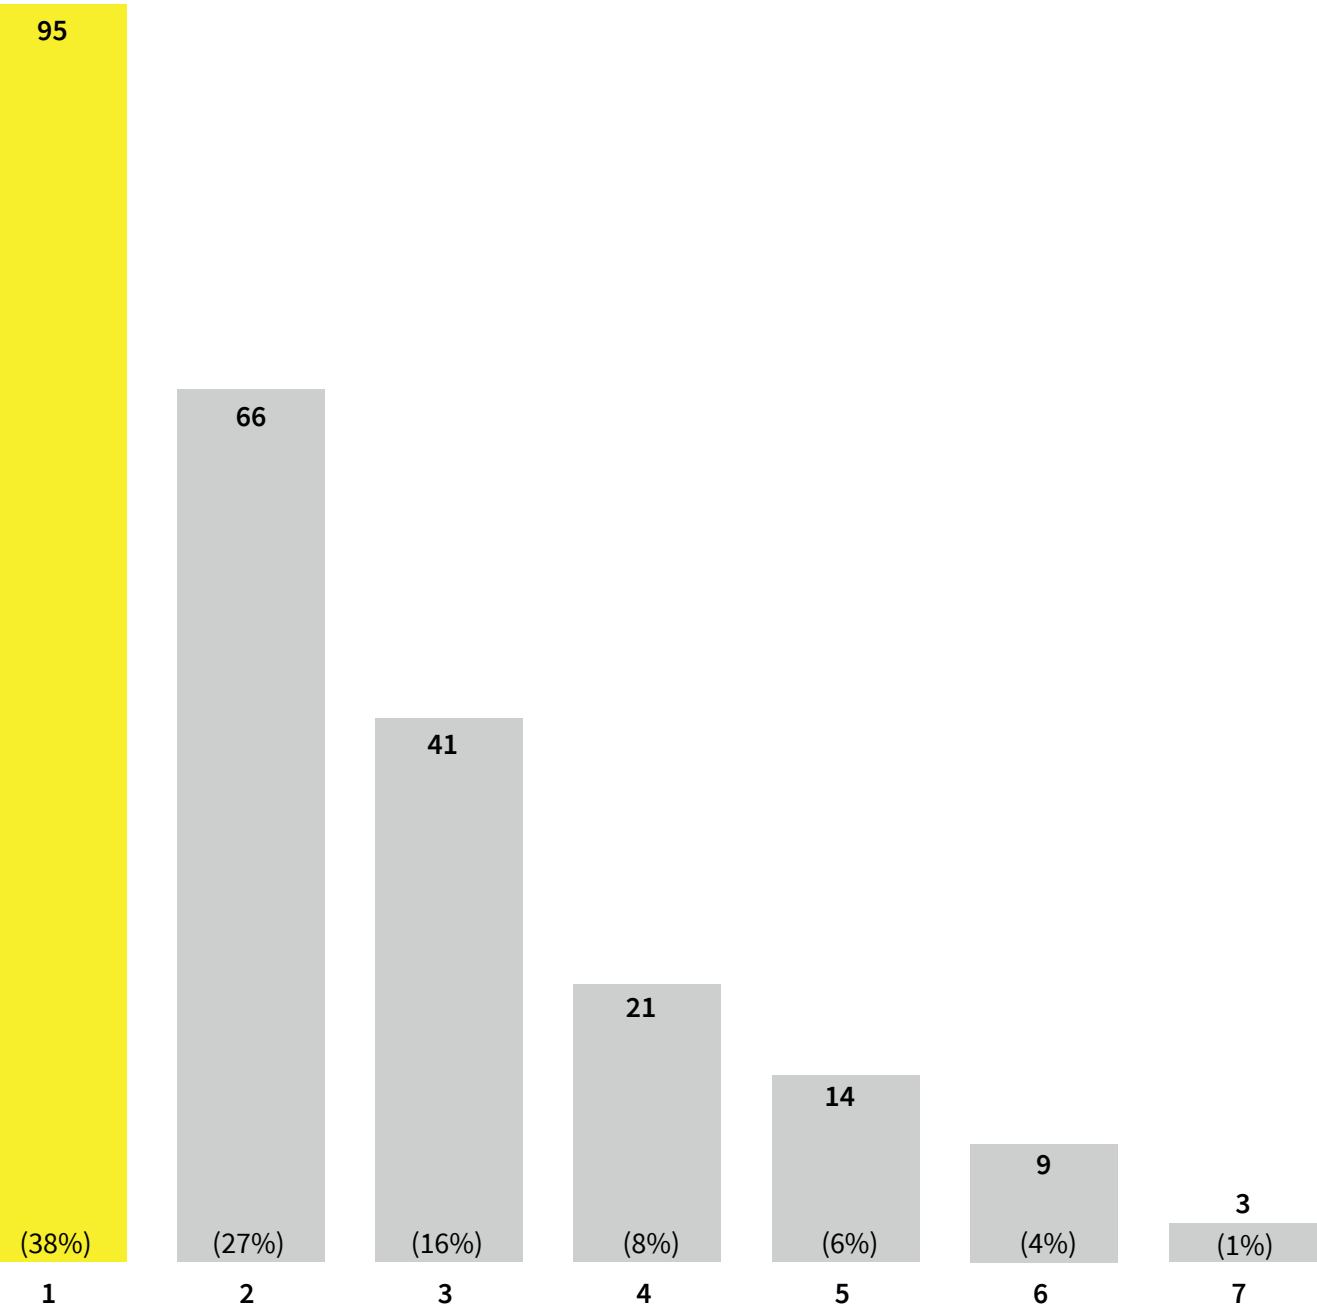

While 12% of private scaleups have grown their headcount by more than 40%, 26% of AIM scaleups have achieved this.

EMPLOYEE GROWTH RATES OF AIM SCALEUPS COMPARED WITH PRIVATE SCALEUPS

62% of AIM scaleups have scaled for more than one three-year period, while 57% of private scaleups have done this.

NUMBER OF SCALING EVENTS SINCE 2011 FOR EACH AIM SCALEUP

About the authors.

Beauhurst

Beauhurst is a searchable database of the UK's high-growth companies.

Our platform is trusted by thousands of business professionals to help them find, research and monitor the most ambitious businesses in Britain. We collect data on every company that meets our unique criteria of high-growth; from equity-backed startups to accelerator attendees, academic spinouts and fast-growing scaleups.

Our data is also used by journalists and researchers who seek to understand the high-growth economy, and powering studies by major organisations – including the British Business Bank, HM Treasury and Innovate UK – to help them develop effective policy.

The ScaleUp Institute builds on the pioneering research and recommendations published in the 2014 Scale-Up Report. The Institute collaborates with policy makers, corporate partners and educational establishments to take these recommendations forward, to track the targets set out in the report, and to make a real and identifiable impact.

We aim to advance understanding of how to scale up a business, and how to build the most effective environment in which scaleups can flourish. We spread best practice, providing opportunities for scaleup companies across industry sectors and regions to meet and share ideas. We undertake research, thought leadership and targeted projects with partners.

We work with policy makers to identify opportunities that will support scaleup businesses. We share our methodology and ideas to create resources that will help aspiring scaleup businesses. We keep scaleups and their issues at the top of the UK political and business agenda.
